

Series 73

Domestic Custom Tracking System

Oslo Series 73 is a versatile domestic tracking system suitable for most normal domestic uses. It can be cord and hand drawn around bends making it ideal for bay and corner window applications.

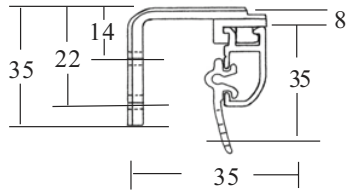

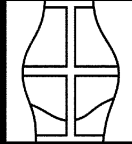

Oslo Series 73 is available as a single, double, or triple track which is supported by a range of strong brackets fitted with die cast locking cams for easy installation. Available with a choice of slides or wheeled carriers that ensure smooth operation.

Available as custom made to measure or bulk components in White, Bone, and Brown.
